Family Owned & Operated Emphasizing High Quality & Low Price

APPLICATION & PLANNING

Styles once available in wood and ornamental are now available in vinyl. For yard, pool or garden accent, maintenance free vinyl is the choice for many homeowners.

Consider These Factors:

“Why do I want a fence, and what purpose will it serve?”

- security or property line marker
- privacy
- yard enhancement
- local requirement (swimming pool, local mandate, etc.)

The Five Steps To Your Fence Purchase:

1. Determine the placement of the fence. You should be aware of your property lines. The best way to do this is from your property survey. We recommend the fence placement to be 6” inside of the boundary lines to give you access to both sides of fence from your property.
2. Check with your local building department and homeowner’s association for any deed restrictions which may apply.
3. Determine the amount of money you wish to spend.
4. Architectural Continuity. Keep in mind the style of your home when making your fence choice. You’ll want both styles to compliment one another.
5. Contact the fence professionals at Bruce Fence Co., Inc., 783.8792 or sales@brucefence.com and we’ll help you with your final choice. Our friendly experienced staff will assist you in selecting the best fence package to suit your needs.

Choices, Choices, Choices

We offer many styles to suit different tastes, and prices for all budgets. Choose from wood, chain link, vinyl, or ornamental styles. We have fences that offer privacy and those that don’t. Mixing styles may also be the key to achieving the results you have in mind; ask for our General Brochure for other styles.

GOLDEN FENCE RULES

Before you make your final choice, review the Golden Fence Rules...

1. Be sure your contract includes all costs in writing and a complete description of all work to be performed.
2. Buy only from a qualified fence manufacturer and installer. Big box stores do not have working experience in design, fabrication and installation.
3. Insist on a particular fence design that will enhance the beauty of your home. Do not accept substitutes from a retailer's skimpy stock.
4. Beware of gimmick advertising, sub-standard materials and short-cut construction and installation. The lowest price does not equal the best deal.
5. Compare style, quality and grade of stock – **THE LABEL OF PVC FENCE ALONE DOES NOT SIGNIFY QUALITY.**
6. Protect your family and your property from lawsuits. Be sure that your fence contractor is fully insured with Workers' compensation and General Liability Insurance.
7. Deal only with a fence contractor who maintains adequate facilities to meet all customer requests.
8. Check your fence contractor's business reputation – ask to see work done in your area.

We hope you have enjoyed browsing through our PVC Brochure and urge you to visit not only our own, but our competitors' offices and display areas before you make your purchase.

You will then realize how important it is to compare quality and price before you make your final decision.
